Dream . . . Learn . . . Do . . .
Igniting a passion for learning.
Preparing students for the future.

Curriculum:
We provide a relevant and challenging curriculum that enables students to achieve educational excellence and ignites their creativity and passion for lifelong learning.

Environment:
We provide an environment that is supportive and inclusive, allowing students to become confident and creative individuals.

Connections:
We encourage students to connect with their peers, their school, their community and with the wider world, enabling them to become active and informed citizens.

Transition Program
2014 Prep Enrolments
We are a community minded school located in the residential suburb of Mentone. Our location away from main roads and thoroughfares makes us a "hidden gem".

Our motto of “Reaching Higher” is achieved through providing an environment that is supportive and inclusive, allowing students to become confident and creative individuals. We also provide a relevant and challenging curriculum that enables students to achieve educational excellence and ignites their creativity and passion for lifelong learning. We encourage students to connect with their peers, their school, their community and with the wider world, enabling them to become active and informed citizens.

We work under the following TIER of core values:
- Teamwork; together we can achieve the same goal
- Integrity; we are led by our moral purpose
- Excellence; achieve better than our best
- Respect; have a positive regard for all

Contact the school for a tour with the Principal, Kendra Parker, at a time that is convenient to you.
